These tasks include learning, decision-making, problem-solving, and understanding natural language. AI systems are designed to analyze data, recognize patterns, and make decisions with minimal human intervention. </p> BUY NOW </div> </div>
3	<h3>AI Prompt</h3> <p> An AI prompt is a question, command, or statement that you input into an AI model to initiate a response or action. It uses natural language processing to guide the AI in generating relevant content. The prompt serves as the starting point for the AI's generation process, directing it towards producing the desired outcome. Prompts provide context and direction for the AI, influencing the quality and relevance of its output. Crafting effective prompts involves selecting the right words, phrases, and formats to optimize the results from AI models. This ensures that the AI understands not just the language but also the nuance and intent behind the query. </p> <div>  </div> <div> BUY NOW </div>

ROADMAP

01

Presale and Marketing

JEBATcoin20 starts on a level playing field with a fair presale. The team will allocate a portion of funds raised towards a professional marketing strategy.

03

Presale Token Claiming

The JEBAT20 staking smart contract is programmed to distribute tokens to all stakers in the pool over a period of two years, providing sustained passive rewards.

05

Allocated Liquidity Provision

The JEBATcoin20 team will add a substantial liquidity pool to Uniswap. For this purpose, 10% of the total token supply has been set aside.

02

Early Staking Incentive

Presale buyers of JEBAT20 will be able to stake their tokens into the smart contract before listing day to benefit from the high early rewards opportunity.

04

DEX Launch on Uniswap

JEBAT20 will launch on Uniswap, the largest decentralized exchange. This will provide the best trading environment and early liquidity.
